SUMMARY

A Junior Fullstack Web Developer experienced in building responsive and dynamic websites using Laravel, Tailwind CSS, and JavaScript technologies like React.js and Vue.js. Skilled in translating UI designs into clean code and developing both front-end and back-end features. Comfortable working in teams and focused on delivering user-friendly and efficient web applications.

PROJECTS EXPERIENCE & ORGANIZATION

IT Committee Member, SMK Negeri 1 Ciomas Sep - Dec 2024

- Served as a moderator in one of the community meetings, showing good communication and leadership skills.
- Supported collaborative learning sessions among peers in topics such as programming and technology awareness.

Assistant Project Manager | Collaboration Project with Local Businesses (UMKM) Nov - Dec 2024

- Collaborated with local small businesses (UMKM) to analyze the needs of a booking system aimed at improving operational efficiency
- Conducted research and interviews with business owners and staff to understand workflow challenges
- Helped design a orders system solution and provided actionable improvement recommendations

Backend Developer | 11th Project at School Jan - Mei 2025

- Developing and maintaining server-side logic to support front-end functionality.
- Designed and implemented database schemas to manage staffs, products, and orders.
- Ensured data validation, authentication, and role-based access control for secure operations
- Collaborated with front-end developers to integrate backend services into a seamless user experience
